## Father's Evidence. Stanley Stygar, father of the boy

was the first witness. He told of the condition of his son before the accident and since that time.

The boy himself was then called to the stand and told of how the accident happened as he was on his way home from St. Joseph's school. He

on cross examination he told the court that he was going in the same direction as the truck at the time and the

John Lac, who was on the truck at the time of the accident, was of the opinion that the front part of the truck had struck the boy. The walk was very slippery at the time, being covered with ice. After the truck had been brought to a stop over the walk the boy was found underneath with his shoulder caught under the rear wheel. He was frightened by the blood coming from the boy's mouth and he went away from the place.

Dr. Owen O'Neil testified to taking care of the boy while he was at the hospital and to the extent of his injuries. These consisted of a crushed defeating the side captained by a small margin of sixteen points, defeating the side captained by a small margin of sixteen points, and the side captained by a small margin of sixteen points.

Driver's Testimony.

John C. Hattin, driver or the truck, testified that as he was about to turn in the driveway he saw the boy running down the street with his head down. When about eight feet from the truck the boy looked up and throwing his hands in the air he slid underneath the machine. The witness brought the truck to a stop in about eight feet. In the opinion of witness the front of the truck could not have hit the boy.

On cross examination the witness stated that he did not have any power on when he made the turn. After the accident he carried the boy into a store. When he first saw the boy the front wheels were over the sidewalk.

front wheels were over the sidewalk. Physicians on the Stand.

Drs. Weldon and Wilcox testified to the examinations they had given the boy in regard to his injury. Dr. John boy in regard to his injury. Dr. John Weldon stated that he examined the boy Suring the present month and found his lower lip to be drooping and affecting his speech. He also found that the boy could not open his jaws the full space and that he could open them but a very little at first, but after some effort the mouth could be opened farther. In some cases this disfigurement was not permanent establishment. opened farther. In some cases this disfigurement was not permanent, especially when the lip was affected by the nervous system. In this case the boy has no paralysis, as he can move the muscles of his face but it does affect his eating food. It is probable that he will not recover, but this was not certain. By means of a surgical operation the lip could be brought back nearly to its normal state and by this

At this point the plaintiff rested. Dr. T. R. Parker was put on the stand or the defendants. In the direct examination the doctor agreed with Dr. Weldon as to the disfigurement and to the operation that could be performed. cross examination Dr. Parker that an operation would certainly improve the lip and the boy's speech. He was not certain that the lip could be brought back but he was

after which the lawyers argued to the jury. After being out about one hour the jury returned with a verdict of \$2,000 in favor of the plaintiff. Court then adjourned until this morning.

CINCINNATI AUTHORITY TELLS HOW TO DRY UP A CORN SO IT LIFTS OUT

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, with-

out pain. A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

view a suggestion to petition the com-mittee for reversal of its decision to turn the baseball field into garden sites would be adopted.

Mrs. Rafferty further stated that her son, William, had collected from business men and other generous persons in the city and otherwise raised a fund of more than \$100 for tion of decorating their machines and taking them to Plainfield. It is given out that cars need not be elaborately decorated, but if they show the national colors their presence will be very welcome.

Bankers here stated Wednesday that people in Danielson and vicinity are showing their interest in the government's liberty loan by subscribing for the bonds. Most of the subscriptions received at the banks here are for the small bonds, but there have been a few subscriptions for bonds of the larger denomination.
